

InThinking Network

Thinking Together for a Better Future

Dear friends,

Your current or past connection with the In2:InThinking Network has prompted me to share news about our 2018 Forum activities. Our 17th Forum, "Beyond the Limit: In2 the Next Horizon", has been postponed. At present, the gathering has been rescheduled to June 5th thru 9th, 2019, [instead of the previously scheduled dates in June, 2018].

Forum participants have commented "In2In is a precious Forum," "a great chemistry in the conversations" and "it has such a good ethos." Our 2019 event aspires to continue the conversations and maintain the preciousness as well as ethos many have experienced at our past 16 Forums. On behalf of the entire In2:InThinking Network 2018 Forum Team and our board of directors, I thank you for contributing to our efforts and helping create such a unique experience.

Instead of abandoning participation in great conversations about wonderful ideas for an entire year, I encourage you to satisfy your yearning by registering for and attending the W. Edwards Deming Institute's [2018 Conference](#). I will be in attendance, thereby assuaging my withdrawal symptoms while anticipating the In2:InThinking's 2019 Forum. Please join me in learning and perhaps relieving your symptoms. This 25th year anniversary conference will be held at the Westdrift Manhattan Beach hotel in Los Angeles, California, located 4 miles south of Los Angeles International Airport. It runs from Friday, October 5 through Saturday, October 6, 2018.

There are other W. Edwards Deming Institute events in other parts of the country and the world. Find them at the [Institute's site](#). The WEDI events I have attended, whether as a presenter or an audience member, always paid me dividends worth my investment. Thank you for associating with us at In2:IN.

To joy in learning, may it continue to grow,

Tim Higgins
President
In2:InThinking Network
