ABOUT US
The In2:InThinking Network brings together people who share an interest in using better thinking to create a better future - for individuals, organizations, and the world at large. Our theoretical grounding joins the work of Russell Ackoff, Edward de Bono, W. Edwards Deming, Genichi Taguchi, and other better-thinking theorists. We seek to explore, integrate, and extend their theories with the aim of increasing our consciousness and understanding about how thinking can bring forth a better world. We believe that by "thinking about thinking" - or inthinking - we manage resources, acquire knowledge, work together, lead organizations, and plan more effectively. With inthinking we create a new awareness of various forms of thinking, their interdependency, the possible ways of integrating them, and including them - toward more joy and quality of life in individuals and organizations.

ABOUT OUR 2004 FORUM
Our Third Annual Forum, themed Making a Difference From Where We Are - Better Thinking For A Better Future, continues to expand "thinking about thinking", raising the consciousness of better thinking in individuals and organizations. To that end, we have invited pioneering thinkers who will share their efforts to "Make A Difference". In addition, we are partnering with The Boeing Company to offer four pre-conference workshops. Our 2004 Forum aims to promote an environment where compelling ideas and insights will evolve from an exposure to new thoughts, and inthinking colleagues. (And these ideas and insights may lead you in untold exciting directions in your work and life after the Forum.)

PRE-CONFERENCE WORKSHOPS
Qualified Forum participants may attend any of four workshops that will be held before the core conference portion of our 2004 Forum.

You qualify to attend pre-conference workshops if you are an employee of The Boeing Company, or work for a Boeing supplier or customer; in addition, the pre-conference workshops are open to family members of Boeing employees, students, and "members of the community". "Members of the community" are citizens working full or part time, or as volunteers, in community-related work. Please see our website (www.in2in.org) or contact us for more details on qualifying for attendance at a pre-conference workshop. Seating is limited and will be prioritized according to date of registration receipt. The pre-conference workshop schedule is as follows:

- Enterprise Thinking with Bill Bellows
  Thursday, April 1 8:00 am - to 5:00 pm
  8 hrs, 35 seats

- How to Develop Performance Measures with Phil Monroe
  Thursday, April 1 8:00 am - 12:00 pm
  4 hrs, 30 seats

- Leadership Communication with Marcia Daszko
  Thursday, April 1 1:00 pm - 5:00 pm
  4 hrs, 30 seats

- InThinking and Eco-Operations with Bill Bellows, Elaine Johnson, and Tom Johnson
  Friday, April 2 8:00 am - 5:00 pm
  8 hrs, 100 seats

SHOULD YOU ATTEND?
We believe that anyone interested in improving the effectiveness of individuals and organizations will gain from this Forum. We expect wide variation in the backgrounds of our attendees - which is an asset to the event - and as such have designed our program to be valuable to anyone interested in "better thinking". If you would like to get a "running start" on the inthinking ideas, however, please inquire with us about attending an "Enterprise Thinking" workshop.

REGISTRATION
The cost of the Forum is $250 per person. This includes all workshops, presentations, activities, materials, and meals (dinner on Friday, continental breakfast on Saturday and Sunday, and lunch and dinner on Saturday). Register on-line as well or by completing the registration form and submitting it with your payment. The registration form is available on our website at www.in2in.org. Payment may be made by check or money order or by using the PayPal service on our website. (Due to the added cost to the In2:InThinking Network for this on-line payment option, a surcharge of $8.50 will be added to the $250 registration fee on PayPal payments.)

ARTWORK

This year's artwork is designed by Tim Dazko. The theme of this year’s forum “Making a Difference From Where We Are.” creates a spectrum of ideas, but most significant is the impact of human thought. From the earth and its resources we draw upon our surroundings and inspirations to create. The human figure represents this idea. The lack of a detailed face represents the elimination of the “individual” when it comes to problem solving and innovative thought. The world is directly and indirectly affected by thought. Ideas directly impact actions; the hands represent the application of ideas and the actions that result from thought patterns. The indirect impacts result from the flood of thoughts that flow out of the head and puddle on the shoulders of the thinker. These puddles might be representational of shared, loose, inactive, or untouched ideas, which weigh on the arms and linger until utilized or discarded.
